The following is an examiner's statement of reasons for allowance:

Applicant's argument filed in the Appeal Brief on 7/12/2004 has been considered and deemed to be persuasive. The novelty of the combination of features recited in claim 22 is not disclosed or taught by the prior art. Perras discloses a breast prosthesis which has the form of a soft pouch that is capable of being filled with a filling material, but fails to disclose the recited angle. SCHWEIKHART relates to a rigid or dimensionally stable temporary implant and not to a soft pouch intended for long term augmentation. There would be no motivation to lift the angle recited for the implant of Schweikhart and apply the configuration to the soft pouch of Perras without hindsight based on applicant's specification.

The Examiner agrees with applicant's arguments that the definiteness of claim language is viewed in light of the teachings of the prior art, the particular application disclosure as it would be interpreted by one possessing the ordinary level of skill in the pertinent art, and the level of skill of the artisan. Therefore, all outstanding rejections to the claims have been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
